Full details about the Common Course Policy are found on the BMSc website.
For these Double Majors, there are 2.0 "common courses": Biochemistry 2280A, Chemistry 2213A, Biology/Stats 2244A/B, and one of Biology 2290F/G, 2382A/B or 2581A/B (the Biology course with the highest mark is the common half course). The two common half courses with the highest marks are double-counted/used toward both Major modules. One of the remaining two common half courses is used only toward the Major in Physiology and the other remaining common half course is used only toward the Major in IMS, leaving each Major short by 0.5 course. For each module, a 0.5 "substitute course" must be taken.

See the Graduation Requirements for Honours Bachelor Degrees (such as first-year, breadth, minimum mark and average requirements, etc.).
