

## Mainpro Medical Marijuana Program REVIEW SHEET

Program name: \_\_\_\_\_

University: \_\_\_\_\_

Reviewed by: \_\_\_\_\_

### Quality Criterion One: Needs assessment & Practice Relevance

Meets requirements for:

☐ Includes all of the following:

- Indirect assessment of target audience's needs are used to guide program development and to obtain information on prior knowledge and practice experience of practitioners
- Learning objectives are tied to needs assessment results
- Needs assessment addresses physician competency through CanMEDs-FM

Reviewer Comments/Suggestions

### Quality Criterion 3: Incorporation of Evidence

Meets requirements for:

- ☐ Includes all of the following
  - An outline of the evidence used to create the content must be provided
  - Must include references within materials
  - Lack of evidence for assertions or recommendations must be acknowledged
  - If a single study is the focus or select studies are omitted, program developers must provide the rationale to support this decision
  - Graphs and charts cannot be altered to highlight one treatment or product.
- ☐ Does not meet requirements (cannot be approved)

Reviewer Comments/Suggestions

### Criterion 4: Addressing Barriers to Change

Meets requirements for:

- ☐ Educational design includes discussion of commonly encountered barriers to practice change
