Alcohol-associated liver disease: Updates and clinical pearls

Objectives:

By the end of this Grand Rounds Presentation, participants should/will be able to:

1. To discuss changes in the epidemiology of alcohol-associated liver disease and potential interventions
2. To discuss updates on the diagnosis, prognosis, and treatment of alcohol-associated hepatitis
3. To learn about integrated care for alcohol-associated liver disease

Dr. JP Arab

Dr. Arab is an Associate Professor of Medicine at the Division of Gastroenterology, Department of Medicine, and the Department of Epidemiology and Biostatistics at Schulich School of Medicine, Western University, London, Ontario, Canada. Dr. Arab is a Gastroenterology and Hepatology specialist, Transplant Hepatologist and Clinical Researcher with interest in clinical/translational research and epidemiology in alcohol-related liver disease and non-alcoholic fatty liver disease.

The Medical Grand Rounds at University Hospital is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada.

Evaluations will be sent out and your attendance calculated automatically through One45.
