Dr. Arash Kaur Dhaliwal

Monitoring in Methamphetamine Use: Mental and Physical Health

Objectives:

By the end of this Grand Rounds Presentation, participants should/will be able to:

1. Be aware of crystal methamphetamine intoxication, withdrawal, overdose, physical and mental health effects.
2. Understand the monitoring approaches for the mental and physical health needs of those who use methamphetamines.
3. Describe the management approaches for methamphetamine use disorder.

Dr. Dhaliwal is a Psychiatrist at LHSC, Department of Psychiatry. She is Assistant Professor at Western, co-physician lead of the Addiction Medicine Program at LHSC, and part of the Prevention & Early Intervention for Psychoses Program. Her research and quality improvement projects have focused on addictions throughout the country.

Please visit [Department of Medicine Grand Rounds](#) to access recordings from this and prior Grand Rounds presentations.

The Medical Grand Rounds at University Hospital is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada.

Evaluations will be sent out and your attendance calculated automatically through One45.
