

Medicine Grand Rounds

Friday February 9 @ 12:00 – 1:00 pm

Mark Goldszmidt, MD, MHPE, PhD, FRCPC

Mark Goldszmidt is a Professor of Medicine and Associate Chair of the Department of Medicine, the DOM Site Head at University Hospital and a Clinician Scientist at the Schulich School of Medicine & Dentistry.

Doing Research at the Intersection of Patient Care, Supervision and Teaching: Lessons Learned Along the Way

Objectives:

Whether it be during a workshop or while reading a 'how to teach' paper, we have all had the experience of thinking "this feels too simplistic". During this presentation, I will review key lessons learned about the complexity of clinical learning environments and what happens when patient care, supervision, teaching and learning intersect in real world contexts. By the end of the rounds, participants (both faculty and trainees) will:

1. Commit to reading a qualitative observational research study related to clinical education.
2. Recognize when the “things of practice” (i.e., hospital policies, schedules, electronic health records) are potentially having a negative impact on patient care and education and be willing advocate for change.
3. Describe at least three strategies that they can use in clinical settings to improve the experience of learning.

University Hospital: Auditorium A

Victoria Hospital: Sumner Auditorium

Zoom Link: [Join Zoom Meeting](#) (Meeting ID: 998 0730 4248)

The Medical Grand Rounds at University Hospital is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada.

Evaluations will be sent out and your attendance calculated automatically through One45.
