CURRENT RESEARCH OPPORTUNITY FOR MSC APPLICANTS

Graduate Program: Department of Epidemiology and Biostatistics MSc Program

Research Cluster: Clinical Epidemiology, Evidence Synthesis & Health Technology Assessment; Knowledge Translation

Supervisor: Dr. Janet Martin

Supervisor’s Affiliations: Anesthesia & Perioperative Medicine; Epidemiology & Biostatistics; Centre for Medical Evidence, Decision Integrity & Clinical Impact (MEDICI, a WHO Collaborating Centre)

Vacancies: 1 or 2

Term: 2 Years

Student Position Title: Health Technology Assessment: Applied to Surgery & Perioperative Care

Description: Seeking Master’s students to synthesize the evidence across multiple domains to inform decisions about whether selected innovative surgical and perioperative health technologies should be adopted in the local and/or global healthcare setting. Research may be in collaboration with hospital clinicians, government decision-makers, or WHO, and may require meeting pre-established timelines throughout the duration of the MSc program. Must be self-funded.

To Apply: Applicants must independently apply to the Epidemiology and Biostatistics MSc graduate program, using the online Western application portal including a clear reference to this research project in the Statement of Academic Interest.

Application Deadline: January 15

Contact Information: Questions regarding the application process, or inquiries about the Epidemiology and Biostatistics program may be addressed to the Academic Program Coordinator.
