"Using Nascent RNA Bru-seq to interrogate cancer"

Presenter:

Dr. Mats Ljungman
Professor of Radiation Oncology, Medical School and Environmental Health Sciences,
School of Public Health, University of Michigan

Hosted by: Experimental Oncology

Objectives:

- Description of the nascent RNA Bru-seq technology
- Contrasting nascent transcriptional profiles in cancer stem cells and non-cancer stem cells and during EMT
- Using Bru-seq to identify novel small molecules for cancer therapeutics

THANK YOU TO OUR SPONSORS:

REFRESHMENTS WILL BE PROVIDED
Department of Oncology, Schulich School of Medicine & Dentistry
