"Stereotactic ablative radiotherapy for lung cancer: From evidence based medicine to medicine based evidence”

Presenter:

Alexander V. Louie MD, BSc, MSc, PhD, FRCPC

Assistant Professor Radiation Oncology, LRCP
Schulich Clinician Scientist, Western University
Associate Scientist, Lawson Health Research Institute,
Institute of Clinical Evaluative Sciences, Faculty Scholar
Resident research coordinator and fellowship director, Department of Radiation Oncology

Hosted by: Radiation Oncology

Objectives:
- To describe the increasing role of SABR for early stage non-small cell lung cancer
- To review newer comparative effectiveness research modalities in the context of lung cancer
- To discuss the current and future landscape of SABR in oligometastatic lung cancer

THANK YOU TO OUR SPONSORS:

REFRESHMENTS WILL BE PROVIDED
