“THE JOURNEY, NOT THE DESTINATION:
Quality Improvement in Radiation Therapy”

Brian Liszewski, M.R.T(T), BSc.
Quality Assurance Coordinator, Radiation Therapy
Practice-Based Researcher | Sunnybrook Research Institute
Lecturer, Department of Radiation Oncology, University of Toronto

Objectives:
- Define the concept of quality from the professional, patient, and organizational perspective.
- Understand components that contribute to a quality culture.
- Learn and apply quality tools in the Radiation Therapy setting.
- Understand methods for measuring success.
- Discuss the impact of quality on a Radiation Therapy program.
