ONCOLOGY GRAND ROUNDS
Tuesday, May 22, 2018

12:00 to 1:00 p.m. in Rooms A3-924A/B
London Regional Cancer Program

“It takes a village to raise...the standard of care for esophageal cancer treatment”

Dr. Michael Sanatani
Associate Professor, Department of Oncology, Western University,
Staff Medical Oncologist, London Regional Cancer Program,
London Health Sciences Centre

Objectives:
- List outcomes affected by hydration and nutritional support in esophageal cancer management
- Review multidisciplinary strategies that have been used to prevent malnutrition and dehydration in esophageal cancer treatment
- Outline possible local strategies to improve our care of esophageal cancer patients undergoing chemoradiation and foster patient sense of self-efficacy

Hosted by: Medical Oncology
