Mindfulness Based Interventions and Meditation in Medicine

Dr. Maria MacDonald
Neurologist in Oncology, Adjuvant Professor, Department of Oncology, Western University

Objectives:
• To summarize the historical and clinical context of how mindfulness based interventions have been studied and used in patient care
• To review the physiological, neurological and immunological effects of mindfulness and meditation
• To discuss how mindfulness and meditation based interventions are being used to benefit oncology patients AND health care professionals themselves.

Hosted by: Schulich School of Medicine & Dentistry
