“The genomic profile of Head and Neck Squamous Cell Carcinomas stratified by smoking status”

Farhad Ghasemi
MD Candidate 2019
Schulich School of Medicine & Dentistry
Western University

Objectives:
1. To discuss the clinical characteristics and survival outcomes in HNSCC patients stratified by smoking status
2. To illustrate the mutational differences between smokers and non-smokers in HNSCCs both in human-papillomavirus (HPV)-positive and HPV-negative disease
3. To reveal a novel biomarker of survival in HPV-negative HNSCC.

“Exploring colonic stem cells and colorectal tumorigenesis”

Elena Fazio, Ph.D.
Postdoctoral Fellow, Lawson Health Research Institute,
London Regional Cancer Program

Objectives:
1. To understand the biology of colorectal cancer through
2. identification of stem cell populations in the colon and
3. determining their individual contributions to tumorigenesis.
