

## **INFECTION PREVENTION AND CONTROL CORE COMPETENCY TRAINING**

To ensure the safety of the observer, patients, and staff, you are required to complete the Infection Control Core Competency training modules. These are three e-learning modules that will enhance your knowledge of infection control.

1) Hand Hygiene:

<http://www.health.gov.on.ca/english/providers/program/pubhealth/handwashing/flash/handhygiene.html>

2) Chain of Transmission:

[http://www.health.gov.on.ca/english/providers/program/infectious/chain\\_of\\_trans/scorm/chainTrans.html](http://www.health.gov.on.ca/english/providers/program/infectious/chain_of_trans/scorm/chainTrans.html)

3) Routine Practices:

[http://www.health.gov.on.ca/english/providers/program/infectious/routine\\_practices/scorm/RoutinePractices.html](http://www.health.gov.on.ca/english/providers/program/infectious/routine_practices/scorm/RoutinePractices.html)

---

I have reviewed all three of the above Infection Control modules and agree to follow the proper steps required to ensure both the safety of myself and the patient throughout this observership.
