We are excited to announce the following recruits to the Department of Paediatrics:

**Dr. Breanna Chen**

Dr. Chen completed her undergraduate degree at the University of Calgary in 2006 followed by an MD degree at the University of Alberta in 2011. She completed her residency in pediatrics at both the University of Alberta and Western University, obtaining her FRCPC in 2015. She went on to complete an additional year of subspecialty training in pediatric respirology at Western University. She is interested in knowledge translation in the field of hospital pediatrics and is keen to develop a multidisciplinary clinic serving the Trisomy 21 population as well as a clinic with a focus on the management of sialorrhea. **Dr. Chen will join the Section of Paediatric General Academic Paediatrics on November 15, 2016.**

**Dr. Brianna McKelvie**

Dr. McKelvie is a graduate of the Faculty of Medicine at Western University. Following medical school, she entered residency education in Pediatrics at the IWK Hospital at Dalhousie University. Following her residency she completed her fellowship in pediatric critical care at the Children’s Hospital of Eastern Ontario at the University of Ottawa. Dr. McKelvie became a Fellow of the Royal College of Physicians and Surgeons of Canada (Pediatrics) in 2014 and in 2015 (Critical Care). She is a candidate for a Master’s in Quality Improvement and Patient Safety at the University of Toronto. Dr. McKelvie has a strong interest in quality improvement/patient safety initiatives within the PICU and the hospital and hopes to be active in these fields. **Dr. McKelvie will join the Section of Paediatric Critical Care on January 2, 2017.**

**Dr. Tara Mullowney**

Dr. Mullowney is a graduate of the Faculty of Medicine at the University of Toronto. Following medical school, she completed Pediatric Residency and a Fellowship in Pediatric Respirology at the University of Toronto/Hospital for Sick Children. Her clinical and research interests include Primary Ciliary Dyskinesia and Non-CF bronchiectasis as well as General Respirology and Sleep Medicine. Outside of work, she enjoys playing hockey and soccer and is looking for new teams here in London. **Dr. Mullowney will join the Section of Paediatric Respirology on November 15, 2016.**
**Dr. Jacqueline Ogilvie**

Dr. Jacqueline Ogilvie has recently completed her Sub-specialty Residency in Developmental Pediatrics at the University of Alberta, in Edmonton. She has clinical interests in children with Autism Spectrum Disorders and genetic syndromes, as well as the rehabilitation of children following acquired brain injury. She has training in both the Neuromotor and Behavioural aspects of Developmental Pediatrics. Originally from Hamilton Ontario, she completed her pediatrics residency in London, Ontario and then was enticed to move out West to continue training. Developmental pediatrics combines her passion for understanding early brain development, social determinants of health and patient advocacy. She has a Master’s degree in Clinical Epidemiology and Biostatistics from McMaster University. Her Master’s thesis was a qualitative look at expanding genetic services in Ontario. Dr. Ogilvie looks forward to growing her research portfolio to include both clinical and health systems-based research, in the future. **Dr. Ogilvie will join the Section of Developmental Paediatrics on October 1, 2016.**

**Dr. Gary Tithecott**

Dr. Tithecott is a graduate of the Faculty of Medicine at Western University. Following two years of Family Medicine practice in Sarnia, he entered residency education in Pediatrics at the IWK Hospital in Dalhousie University and the Hospital for Sick Children at the University of Toronto. He also holds a Masters in Business Administration from the Ivey Business School at Western University. Dr. Tithecott had practiced, since 1986, as a consulting General Pediatrician in Chatham-Kent. He has been the Associate Dean of Undergraduate Medical Education at the Schulich School of Medicine & Dentistry since October 2011. In this role, he leads the Doctor of Medicine Program and works collaboratively with others to improve and deliver the MD curriculum. Dr. Tithecott has a strong interest in quality patient and family-centered care, medical education and health care leadership. **Dr. Tithecott will join the Section of General Academic Paediatrics on November 15, 2016. He will assume the role of Section Head.**

Please join us in welcoming all of our new faculty to the Department of Paediatrics.
