

# Dr. Robert Zhong Seminar

## Pathology and Laboratory Medicine

### Dr. Cheryle Séguin

Associate Professor,  
Department of Physiology and Pharmacology,  
Western University

Thursday October 19, 2017  
12:00 – 1:00 pm  
Auditorium A, University Hospital

*Light refreshments provided*

Everyone is Welcome

***“From development to disease: Lessons learned using mouse models to study the intervertebral disc.”***

#### Objectives:

1. Participants will gain an understanding of the development origins of the intervertebral disc.
2. Participants will be provided a basic overview of the physiological processes associated with degenerative disc disease and associated back pain, and how KO mouse models have informed on the pathways that might regulate these processes.
