

Department of Pathology and Laboratory Medicine

DR. ROBERT ZHONG SEMINAR

DR. DANIEL HARDY

Associate Professor, Departments of
Ob/Gyn and Physiology & Pharmacology

Thursday, February 22

12:00 – 1:00 p.m.

Auditorium C,
University Hospital

“Maternal Drugs in Pregnancy and Long-term Dysmetabolism in the Offspring: Are there Common Links?”

Objectives:

1. We will address whether maternal drugs in pregnancy (i.e. SSRIs, nicotine, and D9-THC) are safe for the offspring long-term.
2. We will identify the role of posttranslational histone modifications, oxidative and ER stress in perinatal drug-induced dysmetabolism.
