Congratulations to the 2016 recipients of the Faculty Support for Research in Education awards

We are pleased to announce the results of the 2016 competition for Faculty Support for Research in Education (FSRE).

FSRE grants facilitate and enable scholarship in education at the Schulich School of Medicine & Dentistry that has the potential to improve the state of knowledge and inform educational practice in medicine, dentistry, or the basic sciences.

Three new awards have been approved. Congratulations to the following recipients:

Developing a multiple perspective approach for teaching patient centeredness, advocacy and communication  
PI: Kori LaDonna, CERI  
Co-investigators: Shannon Arntfield, Sayra Cristancho

Does real-time physiological biofeedback improve the teacher-student interaction and learning during high stakes surgery?  
PI: Alp Sener, Department of Surgery  
Co-investigators: Saad Chahine, Sayra Cristancho

Factors influencing residents' engagement in research during post-graduate training  
PI: Neil Duggal, Department of Clinical Neurological Sciences  
Co-investigators: Saad Chahine, Chris Watling, Faizal Haji
