MEETING #1 - RESEARCH PROPOSAL - Page 2

COMMUNICATION AND ACADEMIC DEVELOPMENT:

Was the student's written proposal report organized and provided in a timely fashion to committee members?

Did the student's presentation communicate the theory, data, conclusions, and proposal work well?

Is additional course work, self study or other activities needed for the academic development of the student?

COMMENTS:

BACKGROUND KNOWLEDGE:

Does the student have good knowledge of the relevant field of research and a good sense of where project fits in the field of research (i.e. what is contribution to the field)?

Does the student have a good understanding of the techniques to be used or being used?

COMMENTS:

PROJECT:

Does the project have a clear hypothesis and set of objectives and are the appropriate experiments being done to address these?

COMMENTS:
