

Archived Collections @ Anesthesia Library (University Hospital)

The print subscriptions for the following journal titles have been cancelled as of 2009 for the Dept. Library order. All of the journal titles that have been cancelled for the Library are available via the UWO Libraries (proxy access required), in full-text and with searchable archives. If you require any assistance locating an article for one of the following archived titles, please advise the [Library Assistant](#).

Although the print-copies have since been cancelled, the following periodicals and yearbooks, remain bound and archived at the Dept. Library, and therefore can still be used as a valuable resource for hardcopy journal articles.
