Welcome to Schulich Medicine's Windsor Campus

On behalf of the entire Schulich Medicine Windsor Campus family thank you for selecting Windsor/Essex as a location for your continued medical training. I also want to extend a warm welcome to you and your family member(s) if they have accompanied you. Please know that my colleagues and I will do everything possible to ensure your time here will be academically rewarding and personally enjoyable.

Medical education in Windsor/Essex is a relatively new phenomena: medical residents have only been training in Windsor on a regular basis since the early 2000's. The doors of the Windsor Campus opened just a few short years ago (2008). That said, this is a part of Canada that has historically experienced challenges with its supply of medical practitioners. As a result, it is fair to say that the local community is absolutely delighted that medical education is now firmly rooted here. I think you will find this to be the case as you interact with house staff, allied professionals and most importantly the patients you will see. I will predict that you will find them all very receptive to your being here.

Healthcare in Windsor/Essex is undergoing a dramatic transformation and therefore you have chosen an exciting time for your training. Increasingly, local healthcare leaders are planning services from a systems perspective including the proposal for a new state-of-the-art acute care hospital. While here, I hope that you will gain a sense of the excitement and optimism that is alive in this community.

I also hope that you will have an opportunity to see what it is like to live in the Windsor/Essex County area. The numerous green-spaces including a series of parks extending roughly five kilometers along the Detroit River, the scenic views, the unique habitat of Point Pelee National Park, walking and biking trails, mild winters, top tier entertainment and sporting events, it is all here in a vibrant, tolerant and diverse community! Our team is confident that you will be amazed at how much you will appreciate not only your exceptional training experience but also the extra-curricular activities. We also want you to know that we will do our best to make your time in Windsor/Essex an enjoyable experience; we hope that you will want to return again in the future.

In closing, welcome to Windsor/Essex and on behalf of our entire Windsor Campus team, I wish you a wonderful training experience!

Sincerely yours,

Dr. Larry Jacobs
Associate Dean
