

Repairs and Maintenance Around the Department

Maintenance issues such as door locks not operating smoothly or needing new batteries, leaky faucets or dishwashers, light bulbs burned out, etc. can be reported directly to Facilities Management Client Services: <https://fmeworq.adt.wts.uwo.ca/>. Using the eWORq Electronic Work Order Request form can save time and expedite the repairs.

Nearly all repairs you will encounter are facility-related and don't require a SpeedCode so, you can leave that field blank. If you're in doubt, contact Boun Thai (boun.thai@schulich.uwo.ca) for advice. FM will only charge your SpeedCode if appropriate (i.e. your lab freezer breaks down).
