This email message is being sent to all students who submitted an ITR for Year 3 BMSc and is posted on the landing page for Year 3 BMSc. I would ask that you please read it carefully as it contains a lot of important information (and I will refer you back to it if you email me with a question that is answered below).

I will begin the adjudication process for students who requested Year 3 BMSc tomorrow. Year 4 adjudication took longer than anticipated, as per usual.

Please do not email me, the Academic Counselling Office of any departments about whether you will be admitted to Year 3 BMSc and the module(s) you requested during the ITR period. Be patient!

The chart of Minimum Averages for admission to Honours Specialization modules will be updated and posted on June 7th.

Adjudication decisions should be available for most Year 3 students by June 10th.

I would ask that you be patient as you wait for your results. Your adjudication decision will be posted in your Grade Report:
- Go to Student Center > My Academics > View My Grades
- Click on the “Grade Report” tab at the top and make sure that 2020 Fall/Winter shows up in Select Term (if not, then change the term)
- Look for Remarks under the listing of courses and marks – this is your adjudication decision

How to interpret your Remarks:
One of the comments below will indicate that you are eligible for your First Choice (and you can see your First Choice in the Intent to Register tab at the top):
- Eligible for requested Honours module(s)/program
- Not eligible for Scholar’s Elective, King’s Scholar or Western Scholar. Eligible for Honours module(s) – this remark means that you are eligible for the module(s) you requested as your First Choice but the Western Scholars designation will not be added to your degree (see Eligibility Requirements for Western Scholars)

One of the comments below will indicate that you are not eligible for your First Choice:
- Not eligible for first choice. Eligible for second choice – you are assigned to your Second Choice and can review your Second Choice on the Intent to Register tab
- Not eligible for BMSc degree. Eligible for B.Sc degree - I’ve looked at every possibility in BMSc and could not find something for which you are eligible. Students in this situation may not re-apply for admission to the BMSc Program in the future unless they submit an Appeal and the appeal is successful.
- Department decision-ineligible for requested Honours module(s)/program. Degree and/or module(s)/program changed per Faculty decision. Review registration for coming year in Student Center > My Academics > My Program – these remarks mean that you are not eligible for either of your ITR Choices and I’ve had to assign you to something else for the upcoming year. You will be able to see your module(s) that have been assigned for next year once the Office of the Registrar has “term-activated” you for the Fall/Winter.

Remarks about summer courses:
To register in a BMSc degree next year, you must successfully complete (pass) any summer course in which you are registered and you may see one of the following remarks:
- Program is dependent on successful completion of summer course – you simply have to pass your summer course to remain registered in an Honours degree (and associate modules) for next year.
- Program is dependent on successful completion of summer course(s) with a minimum mark of 60% - most often assigned when a summer course can be used toward your module (all modular courses must be completed with marks of at least 60% in Honours degrees)
- Program is dependent on successful completion of summer course(s) with min mark of 65% or min avg of 70% - assigned for students who are in Western Scholars and Scholar’s Electives since all courses must be completed with marks of at least 65%, etc.

What happens next:
Registration for Fall/Winter courses:
Western is planning on offering courses in-person during the Fall/Winter and the Fall/Winter timetable has been posted. There may be changes over the next month so make sure you check for updates. The Office of the Registrar will term-activate students (set up your degree/modules) for the Fall/Winter within the next few weeks. For those of you who have a remark in your grade report that your degree/module(s) have been changed, you will be able to see your module(s) once you have been term-activated. The Office of the Registrar will post your Enrollment Date for Fall/Winter course registration in July since third-year students don’t begin registration until July 12.

**Course Selection:**
Review the information about [Courses for Year 3 BMSc](#).

**Zoom meeting/presentation about Courses for Year 3:** I’ve scheduled a Zoom meeting for June 22 from 12:30-1:30 to go over course selection for Year 3. Details are on the webpage for [Courses for Year 3](#).

**What I’ll be working on this month:**
**Finishing up Adjudication:** it’s a lengthy process since it is all done manually for students who request BMSc. **Constraints:** I’ll be updating the constraint charts after I’ve completed all my adjudication. **Worksheets for Double Majors and Honours Specialization modules:** I’ll be updating these worksheets and re-posting before registration begins.

**Zoom meetings with me:**
I’ve opened up the booking for Zoom meetings with me in June. If you book a meeting with me, then either show up for the meeting or cancel it at least 24 hours in advance (so that someone else can book that spot). I would recommend that you attend the Zoom meeting about Courses for Year 3 on June 22 and then book a meeting with me for after that date if you still have questions.

I’ll send an email later in June with any updates and when updated the constraint information and the worksheets.

**One last thing** – this is my busiest time of the year. I’m finishing up adjudication for over 2,000 students and preparing for registration. I will do my best to answer all email messages as quickly as I can. I need all of you to do your best to find the information that is relevant to you on the BMSc website and in the Academic Calendar. And practise your patience skills!

… Kathy
