**BMSc Hons with Double Majors:
Major in Medical Bioinformatics
+ Major in Pathology**

11.0 unique courses must be completed for the modular requirements for the [Major in MBI](#) + [Major in Pathology](#)

- check the boxes below, making selections from drop-down boxes (if present) and typing in courses if a drop-down box isn't present
- check Access to Courses for constraints on basic medical science courses (priorities, etc.) since having the prerequisite does not assure access to courses.
- **Green courses are Admission Requirements and must be completed by the end of Year 2**
- **Blue courses are included in the Progression Requirements and must be completed by the end of Year 3**
- Other courses can be completed in any year, provided the prerequisites are satisfied

NO course can be used in two places below, e.g., Anat Cell Bio 3309 cannot be used to satisfy more than one requirement below

Submit this form for review to the [BMSUE Question Portal](#) if you have questions and/or want a graduation check. There is no need to submit the form if you are sure that your course selection satisfies all the requirements to graduate

* If Computer Science 1026A/B was used to satisfy the 1000-level admission requirements, then one of the half courses in the drop down box must be taken to replace Computer Science 2120A/B as a modular course
