For these Double Majors, there are 2.0 "common courses": Biochemistry 2280A, Biology 2581A/B, one of Chemistry 2213A or 2273A, and one of Chemistry 2223B or 2283G. The two common half courses with the highest marks are double-counted/used toward both Major modules. The two common half courses with the highest marks are double-counted/used toward both major modules. One of the remaining two common half courses is used only toward the Major in Biochemistry and the other remaining common half course is used only toward the Major in Microbiology and Immunology, leaving each Major short by 0.5 course. For each module, a 0.5 "substitute course" must be taken.
