**Major in Medical Cell Biology +  
Major in Microbiology and Immunology**  
for students in Yr 4 in 2025/26

11.0 unique courses must be completed for the modular requirements for the [Major in Medical Cell Biology](#) + [Major in Microbiology and Immunology](#)

- check the boxes below and select/type in the courses you have taken, are taking, and/or are planning to take - **no course can be used in two places below**
- see [Course Selection](#) for choosing courses in Yrs 2-4, the [Academic Calendar](#) for course requisites and [Access to Courses](#) for information about constraints

|                       |  |  |   |
|-----------------------|--|--|---|
| 0.5                   |  | Biochemistry 2280A   |   |
| 1.0                   |  | Chemistry 2213A and 2223B  |   |
| 1.5                   |  | Biology 2290F/G, 2382A/B and 2581A/B   |   |
| 0.5                   |  | Biology/Statistics 2244A/B   |   |
| 0.5                   |  | One of Biology 3316A/B or Physiology 3140A   |   |
| 1.0                   |  | Anatomy and Cell Biology (ACB) 3309  |   |
| 1.0                   |  | ACB 2200A/B + one of ACB 3200A/B, 3201B, 3329B or 3700G  |   |
| 1.0                   |  | 1.0 4000-level Anatomy and Cell Biology  | + |
| 0.5                   |  | Microbiology and Immunology 2500A/B (with a mark of at least 60%)  |   |
| 1.0                   |  | Micro Imm 3300B and 3400A (with marks of at least 70%)   |   |
| 1.0                   |  | Micro Imm 3200B and 3610F  |   |
| 1.0                   |  | 1.0 4000-level Mic Imm listed in <a href="#">Major</a>   | + |
| 0.5                   |  | <a href="#">0.5 substitute course for the either Major in Medical Cell Biology or the Major in Micro Imm</a> |   |
| <b>= 11.0 courses</b> |  |  |   |

Full details about the [Common Course Policy](#) are found on the BMSc website.

For these Double Majors, there are 1.5 “common courses”: Biochemistry 2280A, Biology 2382A/B and Chemistry 2213A. The two common half courses with the highest marks are double-counted/used toward both Major modules. The remaining common half course is used only toward one of the Majors leaving the other Major short of a half course. A half “substitute course” must then be taken for the Major that is short by a half course. Look at the [Substitute Course lists](#) to see whether you prefer the substitute courses that have been approved for one Major vs. the other Major. If you prefer to take a course listed in the substitute course list for the Major in Microbiology and Immunology, then the remaining common half course is used toward the Major in Medical Cell Biology and the substitute half course is used toward the Major in Microbiology and Immunology.

Quick graduation check for BMSc degree with Major in Medical Cell Biology + Major in Microbiology and Immunology:

|                        |                         |                       |        |              |  |
|------------------------|-------------------------|-----------------------|--------|--------------|--|
