

International Experiences & International Exchanges

Hosted by BMSUE

Today's Session

- **Students** who have participated in international experiences
- **BMSUE Coordinator:**
international exchanges and completing a BMSc degree or the Neuroscience Program
- **Questions**

Student Panel

- **Barrett** (bcarley@uwo.ca):
 - *Summer exchange at University of Leeds*
- **Nadia** (nguido@uwo.ca):
 - *Winter Term exchange at Radboud University*

Planning your Experience

Planning your Experience with BMSc in mind

Timelines/Requirements to Consider:

Completion of admission criteria for Year 3 BMSc (i.e. 2000-level admission requirements, course load considerations).

Completion of requirements for progression to year 4; see either the module page in the Academic Calendar for your Honours Specialization or the Common Course Policy page on the BMSc website for details.

Keep in Mind:

- **Requirements to progress to year 4:** This scenario works with modules/module combinations that require half year courses. We recommend you look at the feasibility of taking all of your required courses during your terms at Western and only taking options while away. Otherwise, you may be able to find exact equivalents for your required courses at your host institution.

Tip: If you are planning a double Major combination, be mindful of the prerequisite courses for your 4000-level requirements.
