BMSc Hons degree with Double Majors:
Major Biochemistry + Major Pathology
For students entering Yr 3 in 2025/26 and onward

11.0 unique courses must be completed for the modular requirements for the [Major in Biochemistry](#) + [Major in Pathology](#)

- check the boxes below, making selections from drop-down boxes (if present) and typing in courses if a drop-down box isn't present
- check [Access to Courses](#) for constraints on basic medical science courses (priorities, etc.) since having the prerequisite does not assure access to courses.
- Green courses are Admission Requirements and must be completed by the end of Year 2
- Blue courses are included in the Progression Requirements and must be completed by the end of Year 3
- Other courses can be completed in any year, provided the prerequisites are satisfied

NO course can be used in two places below, e.g., Biochemistry 3385B cannot be used as 0.5 additional Biochem from picklist in Major Biochem and as a substitute 0.5 course for the Major in Biochem.

0.5		Biochemistry 2280A	
0.5		Chemistry 2213A or 2273A	
1.0		Biology 2382A/B and 2581A/B	
0.5		Biology/Statistics 2244A/B	
1.5		Biochemistry 3380G, 3381A and 3382A	
1.0		Pathology 3500	
1.0		1.0 from either Anat Cell Bio (ACB) 3309 or Physiology 3120	
1.0		1.0 Biochem course for Major Biochem	+
0.5		0.5 additional Biochem course for Major Biochem	
1.5		1.5 courses for Major Pathology	+ +
1.0		Medical Sciences 4000E	
0.5		0.5 substitute course for Major Biochem	
0.5		0.5 substitute course for Major Pathology	or
= 11.0 courses			

Full details about the [Common Course Policy](#) are found on the BMSc website.

For these Double Majors, there are 2.0 "common courses": Biochemistry 2280A, the better of Chemistry 2213A/B or Bio/Stats 2244A/B, and Medical Sciences 4000E. The 1.0 common course with the higher mark, i.e., either (Biochem 2280A + the better of Chem 2213A/B and Bio/Stats 2244A/B) or Medical Sciences 4000E, will be double-counted and used toward both Major modules. 0.5 "substitute course" must be taken for Major in Biochem (another Biochem course or Med Sci 3391A/B) and 0.5 substitute course must be taken for Major Pathology (Bio 2290F/G, Chem 2223B or a basic medical science course numbered 2000+).

See the [Graduation Requirements for Honours Bachelor Degrees](#) (such as first-year, breadth, minimum mark and average requirements, etc.). Your quick graduation check for BMSc Honours degree with Major in Biochemistry + Major in Pathology:

<u>Year 1</u>	<u>Breadth</u>	<u>Essay</u>	Majors	20.0 credits	13.0 senior credits, numbered 2000 and above
---------------	----------------	--------------	--------	--------------	--

Submit this form for review to the BMSUE Question Portal if you have questions and/or want a graduation check. There is no need to submit the form if you are sure that your course selection satisfies all the requirements to graduate.
