Full details about the [Common Course Policy](#) are found on the BMSc website.

For these Double Majors, there are 1.5 “common courses”: Biochemistry 2280A, Chemistry 2213A, and one of Biology 2382A/B or 2581A/B (the Biology course with the higher mark is the common half course). Of the 1.5 common courses, the two half courses with the highest marks are double-counted/used toward both Major modules. The remaining common half course is used only toward one of the Majors leaving the other Major short of a half course. A half “substitute course” must then be taken for the Major that is short by a half course.
