There are three restricted periods for Fall/Winter Courses:

1. Priority Enrollment Period (July 5 – July 27): some basic medical science courses have priorities in place during this period.
2. Adjustment Enrollment Period (July 28 – August 4): some basic medical science courses have priorities in place during this period.
3. General Enrollment Period (August 5 – September 1): some basic medical science courses have priorities in place during this period.

Students will have the option to place themselves on a wait list for a class/course during all these enrollment periods. If the course is either full or they do not have priority access (indicated by an error message during an attempt to register for the class), then they must put themselves on a wait list. The Office of the Registrar will run processes daily to register students from the wait lists as long as there are remaining spaces in the course.

**Wait Lists for courses**

Students will have the option to place themselves on a wait list for a class/course during all these enrollment periods. If the course is either full or they do not have priority access (indicated by an error message during an attempt to register for the class), then they must put themselves on a wait list. The Office of the Registrar will run processes daily to register students from the wait lists as long as there are remaining spaces in the course.

**Wait List a Class**

In the chart below, indicate the courses that students you who put themselves on a wait list in the Priority Enrollment Period and/or the Adjustment Enrollment period for details on the type or priority in place for students in your module.

By start of business day on July 29, any student with the prerequisite will be able to register in basic medical science courses for which a priority was in place only for the Priority Enrollment Period, subject to spaces being available.

**Wait List a Class**
