### Course Constraints for Physiology Courses

#### Priority Enrollment Period (July 5 - July 27):
- Only students registered in the modules indicated by **PEP** will be able to register in the course, subject to spaces being available.
- **AEP** indicates that the module is not a specialty stream and includes courses that are offered in all three years of the Biomedical Engineering program.
- **Phys Pharm** indicates that the module includes courses that are offered in all three years of the Pharmacology program.
- **Biochem** indicates that the module includes courses that are offered in all three years of the Biochemistry program.
- **One Health** indicates that the module includes courses that are offered in all three years of the One Health program.
- **Epi** indicates that the module includes courses that are offered in all three years of the Epidemiology and Biostatistics program.
- **MCD** indicates that the module includes courses that are offered in all three years of the Medical Cell Biology program.
- **ICB** indicates that the module includes courses that are offered in all three years of the Medical Biophysics and Biochemistry program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **SPZ** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **HSP** indicates that the module includes courses that are offered in all three years of the Medical Sciences program.
- **MAJ** indicates that the module includes courses that are offered in all th
