This email message is being sent to all students who submitted an ITR for Year 3 BMSc and is posted on the landing page for Year 3 BMSc. I would ask that you please read it carefully as it contains a lot of important information (and you will be referred back to it if you email us with a question that is answered below).

Jen Chambers (BMSUE Coordinator, Interdisciplinary Studies) and I have been very busy adjudicating students and we are wrapping up adjudication for Year 4 students. All decisions about adjudication for Year 3 BMSc should be submitted to the Office of the Registrar by Friday and you should be able to find out your results by June 10th.

**NOTE:** All qualified students from the competitive pool to Year 3 BMSc, including those who are repeating one of the 2000-level Admission Requirements during the summer (as long as the required mark is achievable), will be admitted to Year 3 BMSc. We used an average of 74.45% (mentally rounds up to 75%) and higher on the 2000-level Admission Requirements for admission to Year 3 BMSc.

*Please do not email either Jen or me, the Academic Counselling Office or any departments about whether you will be admitted to Year 3 BMSc and the module(s) you requested during the ITR period. Be patient!* Students who email to ask will be met with stony silence (we’ll delete the email). Be patient – you’ll find out within the next week or so.

The chart of Minimum Averages for admission to Honours Specialization modules will be updated and posted on June 3rd.

Adjudication decisions should be available for most Year 3 students by June 10th.

I would ask that you be patient as you wait for your results. Your adjudication decision will be posted in your Grade Report:

- Go to Student Center > My Academics > View My Grades
- Click on the “Grade Report” tab at the top and make sure that 2021 Fall/Winter shows up in Select Term (if not, then change the term)
- Look for Remarks under the listing of courses and marks – this is your adjudication decision

**How to interpret your Remarks:**

One of the comments below will indicate that you are eligible for your First Choice (and you can see your First Choice in the Intent to Register tab at the top):

- Eligible for requested Honours module(s)/program
- Not eligible for Scholar's Elective, King's Scholar or Western Scholar. Eligible for Honours module(s) – this remark means that you are eligible for the module(s) you requested as your First Choice but the Western Scholars designation will not be added to your degree (see Eligibility Requirements for Western Scholars)

One of the comments below will indicate that you are not eligible for your First Choice:

- Not eligible for first choice. Eligible for second choice – you are assigned to your Second Choice and can review your Second Choice on the Intent to Register tab
- Not eligible for BMSc degree. Eligible for B.Sc degree - I’ve looked at every possibility in BMSc and could not find something for which you are eligible. Students in this situation may not re-apply for admission to the BMSc Program in the future unless they submit an Appeal and the appeal is successful.
- Department decision-ineligible for requested Honours module(s)/program. Degree and/or module(s)/program changed per Faculty decision. Review registration for coming year in Student
Center > My Academics > My Program – these remarks mean that you are not eligible for either of your ITR Choices and I’ve had to assign you to something else for the upcoming year. You will be able to see your module(s) that have been assigned for next year once the Office of the Registrar has “term-activated” you for the Fall/Winter.

Remarks about summer courses:
To register in a BMSc degree next year, you must successfully complete (pass) any summer course in which you are registered and you may see one of the following remarks:
- Program is dependent on successful completion of summer course – you simply have to pass your summer course to remain registered in an Honours degree (and associate modules) for next year.
- Program is dependent on successful completion of summer course(s) with a minimum mark of 60% - most often assigned when a summer course can be used toward your module (all modular courses must be completed with marks of at least 60% in Honours degrees)
- Program is dependent on successful completion of summer course(s) with min mark of 65% or min avg of 70% - assigned for students who are in Western Scholars and Scholar’s Electives since all courses must be completed with marks of at least 65%, etc.

What happens next:
Registration for Fall/Winter courses:
The Fall/Winter timetable was posted today. There may be changes over the next month so make sure you check for updates.
The Office of the Registrar will term-activate students (set up your degree/modules) for the Fall/Winter within the next few weeks. For those of you who have a remark in your grade report that your degree/module(s) have been changed, you will be able to see your module(s) once you have been term-activated.
The Office of the Registrar will post your Enrollment Date for Fall/Winter course registration in July since third-year students don’t begin registration until July 11.

Course Selection:
Review the information about Courses for Year 3 BMSc. And read it, again!

What the BMSUE Office will be working on in June:
- Chart of minimum averages for admission to Honours Specialization modules: this chart will be updated and posted on Friday, June 3, and is accessible via the landing page for Year 3 BMSc
- Constraints: we’ll be updating the constraint charts after we’ve completed all the adjudication forms, and will send an update to Year 4 students when they’re done.
- Worksheets for Double Majors and Honours Specialization modules: We’ll be updating these worksheets in June and re-posting before registration begins. Use the Academic Calendar as your first resource and then fill out the worksheet that pertains to you. Do NOT send us your worksheet when you’re in Year 3 to check that you’re on track. We don’t have time to review these for Year 3 students and you can make good choices.
- Getting things prepared for registration: We check to make sure that every student who is registered in the BMSc and Neuroscience programs is term-activated before registration begins. We have to wait until the Office of the Registrar term-activates students so that we can check that students are in the correct module and year. We’ll create a recorded tutorial about how to use waitlists for course registration.
Q&A sessions: Jen and I will host general Q&A sessions in June. We may record these sessions, the content of which will be driven by the questions that students ask. We’ll post dates, times and Zoom links on the landing page for Year 3 BMSc on Monday, June 6.

Zoom meetings: Jen and I will open up our booking for Zoom meetings in the near future. Only book a meeting with one of us if you need some personalized help and make sure that you book with the correct person (e.g., HSP IMS books with Jen). If you book a meeting, then either show up for it or cancel at least 24 hours in advance (so that someone else can book that spot).

Changing your module: students admitted to Year 3 BMSc will not be permitted to change their modules for Year 3 BMSc. We reserve spaces in basic medical science courses based on anticipated enrollment in modules from our adjudication results and revising modules would be a never-ending process that would impact these reserved spaces so we simply do not allow tweaking of modules in Year 3 BMSc. You will submit an ITR for Year 4 next March and can change modules for Year 4 as long as you take the appropriate courses in Year 3 (and achieve the marks/averages required).

We’ll send an email update in a few weeks. Registration doesn’t begin until July and we’ve got lots of time to get things done.

One last thing – May to July is our busiest time of the year. We’re finishing up the adjudication for ~3,000 students and preparing for registration. We will do our best to answer all email messages as quickly as possible. DO NOT, however, email us to ask in which module you will be registered for the upcoming year (these emails will be met with stony silence).

... Kathy
