DIVISION OF CARDIOLOGY - SUMMARY OF WEEKLY ROUNDS
Monday, April 9:

8:00-9:00  Aud B UH, B2-116 VH & B2-075  Cardiovascular Grand Rounds  Presenter: G. Dresser
Title of Presentation: CV Therapeutics Update 2018: Hypertension, Diabetes, Heart Failure and Stroke Prevention
Learning Objectives:
1. Provide information on recent changes to hypertension and diabetes guidelines.
2. Discuss the importance of renal dysfunction in managing AF related anticoagulation.
3. Review important concepts in “Therapeutics”.

12:00-1:30  B6-115 UH  Adult Congenital Cardiac Surgery Rounds  Videoconference from Toronto
OTN Event #: 78712756  Case-based presentation and discussion
Learning Objectives:
1. To describe long-term complications and outcomes in adults with congenital disease.
2. To formulate a rational approach to the diagnosis and treatment of long-term complications in adults with congenital heart disease.
3. To recognize different diagnostic and therapeutic approaches in the treatment of adults with congenital heart disease.
4. To understand the importance of a systematic, multidisciplinary team approach to provide excellent care for adults with congenital heart disease.

Tuesday, April 10:

7:00-8:00  B6-115 UH  Complex Revascularization Rounds  Presenters: CV Surgeons & Interventionalists
Faculty Supervisors: D. Nagpal/P. Garg
OTN Event #: 78725034  Case-based presentation and discussion
Learning Objectives:
1. To develop a systematic approach to interpretation of coronary angiograms.
2. To discuss interesting case examples and their management.
3. To apply an evidence-based approach to complex revascularization cases in order to improve outcomes.

8:00-9:00  B6-115 UH & B2-074  Heart Failure Rounds  Presenters: Attendings & NPs
St. Joseph’s
OTN Event #: 82212755  Faculty Supervisors: S. Smith, R. McKelvie & S. MacGregor
Learning Objectives:
1. To develop a systematic approach for management of patients with advanced heart failure despite usual care.
2. To discuss challenging cases and develop management plans.
3. To apply patient centered, evidence-based approach to advanced heart failure care in order to improve outcomes, decrease hospitalization and ensure that patients’ goals are addressed to the best of our ability.

2:00-5:00  B6-128 UH  ACADEMIC HALF DAY/DIDACTIC EDUCATION SESSIONS:
2:00-3:00  Chronic IHD: Medical management  Presenter: B. Delf  Faculty Supervisor: N. Suskin
Learning Objectives:
1. Review the indications for initiating medical management in ischemic heart disease.
2. Review the evidence for the efficacy of medical management in reducing symptoms and future cardiovascular events.
3. Review the evidence for duration of treatment, appropriate follow-up and investigations following the initiation of medical therapy for ischemic heart disease.

3:00-4:00  ACHD: Truncus arteriosus and Eisenmenger syndrome  Presenter: A. Sachdeva
Faculty Supervisor: N. Tzemos
Learning Objectives:
1. To review the pathophysiology of Eisenmenger syndrome.
2. To review the pathophysiology of truncus arteriosus.
3. To review echo images of both Eisenmenger syndrome and truncus arteriosus.

4:00-5:00  Pathology Rounds  Cancelled

Wednesday, April 11:

8:00-9:00  B6-115 UH  EP Rounds: M&M Rounds  Presenters: Attendings & Fellows
OTN Event #: 78901468  Learning Objectives:
1. To review recent procedural complications and deaths.
2. To review the current literature surrounding such complications.
3. To discuss methods to minimize and avoid such complications.

Thursday, April 12:

8:00-9:00  B6-128 UH  Graphics Rounds: EST  Presenter: N. Suskin
OTN Event #: 78917733  Learning Objectives:
1. To discuss technical aspects related to the acquisition of cardiac ultrasound.
2. To discuss the anatomical and physiological principles underlying echocardiography images.
3. To understand how echocardiography may assist in the management of patients with known or suspected cardiac disease.

12:00-1:00  B6-115 UH, B2-122 VH, B3-655  Echocardiography Rounds  Presenters: Fellows & Attendings
St. Joseph’s, WGH & STEGH
OTN Event #: 78917733  Learning Objectives:
1. To discuss technical aspects related to the acquisition of cardiac ultrasound.
2. To discuss the anatomical and physiological principles underlying echocardiography images.
3. To understand how echocardiography may assist in the management of patients with known or suspected cardiac disease.
### Thursday, April 12 (con’t):

<table>
<thead>
<tr>
<th>Time</th>
<th>Location</th>
<th>Event Description</th>
</tr>
</thead>
</table>
| 5:30  | Idlewyld Inn (Wine Cellar), 36 Grand Ave., London 519.532.5554 | Journal Club  
Attendance open to Residents, Fellows and Division Members. RSVP to Charlene Grass (Ext. 33830 or email charlene.grass@lhsc.on.ca)  
Presenter: B. Ballantyne  
Faculty Supervisor: P. Diamantouros  
Papers for Presentation: 1. An Invasive vs a Conservative Approach to Elderly Patients with Non-ST-Segment Elevation Myocardial Infarction: Systematic Review and Meta-Analysis  
2. Management of Non-ST-Elevation Myocardial Infarction in Elderly Patients: Time to Consider Frailty and Quality of Life  
Learning Objectives: TBA |

### Friday, April 13:

<table>
<thead>
<tr>
<th>Time</th>
<th>Location</th>
<th>Event Description</th>
</tr>
</thead>
</table>
| 8:00-9:00 | B6-128 UH | EP Rounds: Tracing Rounds  
Presenters: Attendings & Fellows  
Learning Objectives: 1. To develop a systematic approach to EP tracings.  
2. To discuss interesting case examples.  
3. To review electrophysiology principles and concepts. |
| 12:00-1:00 | B6-115 UH | Transplant Rounds  
Presenters: Attendings & Fellows  
Learning Objectives: 1. To review the multidisciplinary issues surrounding transplantation and mechanical circulatory support.  
2. To understand hemodynamics of heart failure patients.  
3. To discuss the psychosocial issues surrounding transplantation and mechanical circulatory support. |

Some of these educational activities/rounds are an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada, approved by the Division of Cardiology Education Committee - Western University.

Supported by unrestricted grants-in-aid provided by:  
Amgen Canada Inc. (Repatha), AstraZeneca Canada Inc. (Brilinta (Ticagrelor)), Bayer Inc. (XARELTO® rivaroxaban tablet), Medtronic of Canada Inc., Sanofi (Praluent), Servier Canada Inc. (Lixiana, Lancora, Viacoram, Coversyl, Coversyl Plus)
