

DIVISION OF CARDIOLOGY - SUMMARY OF WEEKLY ROUNDS

Monday, March 2 - Friday, March 6, 2020

Monday, March 2:

8:00-9:00	Aud B UH, B2-116 VH & B2-075 St. Joseph's OTN Event #: 156618541	Cardiovascular Grand Rounds Presenter: T. Lee Title of Presentation: Quantitative CT Myocardial Perfusion and Edema Imaging Learning Objectives: 1. Understand the basis of CT myocardial perfusion and edema imaging. 2. Recognize common pitfalls in CT studies. 3. Applications in coronary artery disease, sarcoidosis and oncology.
12:00-1:30	B6-115 UH OTN Event #: 157089070	Adult Congenital Cardiac Surgery Rounds <i>Videoconference from Toronto</i> Case-based presentation and discussion Learning Objectives: 1. To describe long-term complications and outcomes in adults with congenital disease. 2. To formulate a rational approach to the diagnosis and treatment of long-term complications in adults with congenital heart disease. 3. To recognize different diagnostic and therapeutic approaches in the treatment of adults with congenital heart disease. 4. To understand the importance of a systematic, multidisciplinary team approach to provide excellent care for adults with congenital heart disease.

Tuesday, March 3

7:00-8:00	B6-115 UH OTN Event #: 156622046	Complex Revascularization Rounds Presenters: CV Surgeons & Interventionalists Faculty Supervisors: D. Nagpal/P. Garg Case-based presentation and discussion Learning Objectives: 1. To develop a systematic approach to interpretation of coronary angiograms. 2. To discuss interesting case examples and their management. 3. To apply an evidence-based approach to complex revascularization cases in order to improve outcomes.
8:00-9:00	B6-115 UH OTN Event #: 156623778	Heart Failure Rounds Presenters: Attendings & NPs Faculty Supervisors: S. Smith, R. McKelvie & S. MacGregor Learning Objectives: 1. To develop a systematic approach for management of patients with advanced heart failure despite usual care. 2. To discuss challenging cases and develop management plans. 3. To apply patient centered, evidence-based approach to advanced heart failure care in order to improve outcomes, decrease hospitalization and ensure that patients' goals are addressed to the best of our ability.
2:00-5:30	B6-128 UH	ACADEMIC HALF DAY/DIDACTIC EDUCATION SESSIONS
3:00-4:00		Cardiac/Coronary Vasculitis Presenter: M. Ward Learning Objectives: 1. To understand the presentation(s) of coronary vasculitis. 2. To understand the imaging and biomarker findings in this rare presentation. 3. To understand the approach to the management of these patients.
4:00-5:30		Clinical Cardiology Rounds Presenter: R. Green Faculty Supervisor: R. McKelvie Title of Presentation: TBC Learning Objectives: TBC

Wednesday, March 4:

8:00-9:00	B6-115 UH	EP Rounds: Staff Lecture Presenter: A. Skanes Topic: Post-PV Flutter Learning Objectives: TBC
-----------	-----------	---

Thursday, March 5:

8:00-9:00	B6-128 UH	Graphics Rounds: ECGs Presenter: L. Gula
12:00-1:00	B6-115 UH, B2-122 VH, B3-655 St. Joseph's OTN Event #: 156626697	Echocardiography Rounds Presenters: Attendings & Fellows Learning Objectives: 1. To discuss technical aspects related to the acquisition of cardiac ultrasound. 2. To discuss the anatomical and physiological principles underlying echocardiography images. 3. To understand how echocardiography may assist in the management of patients with known or suspected cardiac disease.
6:30	<i>Black Trumpet, 523 Richmond Street, London</i> Sponsor: <i>Pfizer Canada Inc.</i>	Interventional Journal Club <i>Attendance open to Interventional Cardiologists and Fellows, Residents, Research and Cath Lab Staff. RSVP to Charlene Grass (Ext. 33830 or email charlene.grass@lhsc.on.ca)</i> Presenter: W. Sumaya Faculty Supervisor: P. Garg Paper for Presentation: Ticagrelor with or without Aspirin in High-Risk Patients after PCI R. Mehran, et al. N ENGL J MED 2019;381:2032-42 Learning Objectives: 1. Review duration of therapy following PCI. 2. Review the role of aspirin in the current era of potent P2Y12 inhibition.

Friday, March 6:

7:00-8:00	B6-128 UH	CTO & Complex PCI Rounds Presenters: Attendings & Fellows Learning Objectives: 1. To develop a systematic approach to chronic total occlusion percutaneous coronary intervention (CTO PCI). 2. To discuss CTO PCI strategies. 3. To review CTO PCI principles and concepts.
8:00-9:00	B6-115 UH OTN Event #: 156650824	EP Rounds: Device Rounds Presenters: Attendings & Fellows Learning Objectives: 1. To develop a systematic approach to device tracings. 2. To discuss interesting case examples. 3. To review programming features and troubleshooting.
12:00-1:00	B6-128 UH	Transplant Rounds Presenters: Attendings & Fellows Learning Objectives: 1. To review the multidisciplinary issues surrounding transplantation and mechanical circulatory support. 2. To understand hemodynamics of heart failure patients. 3. To discuss the psychosocial issues surrounding transplantation and mechanical circulatory support.

Some of these educational activities/rounds are an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada, approved by the Division of Cardiology Education Committee - Western University.

Supported by unrestricted grants-in-aid provided by:
Amgen Canada Inc. (Repatha)
AstraZeneca Canada Inc. (Brilinta (Ticagrelor))
Bayer Inc. (XARELTO® rivaroxaban tablet)
Bristol-Myers Squibb Canada & Pfizer Canada Inc. (Eliquis (apixaban))
Medtronic of Canada Inc.
Novartis Pharmaceuticals Canada Inc. (Entresto)
Servier Canada Inc. (Lixiana, Lancora)
