

DIVISION OF CARDIOLOGY- SUMMARY OF WEEKLY ROUNDS

Monday, November 4 - Friday, November 8, 2019

Monday, November 4:

8:00-9:00	Aud B UH, B2-116 VH & B2-075 St. Joseph's <i>OTN Event #: 135171566</i>	Cardiovascular Grand Rounds Presenter: L. Altamirano-Diaz Title of Presentation: Complex Congenital Heart Disease: For the Adult Cardiologist Learning Objectives: 1. To understand the anatomy and physiology of complex congenital heart disease. 2. To understand the most common surgeries in complex congenital heart disease. 3. To identify late complications of repair/palliated complex congenital heart disease. 4. To discuss the current management options.
12:00-1:30	B6-115 UH <i>OTN Event #: 102030397</i>	Adult Congenital Cardiac Surgery Rounds <i>Videoconference from Toronto</i> Case-based presentation and discussion Learning Objectives: 1. To describe long-term complications and outcomes in adults with congenital disease. 2. To formulate a rational approach to the diagnosis and treatment of long-term complications in adults with congenital heart disease. 3. To recognize different diagnostic and therapeutic approaches in the treatment of adults with congenital heart disease. 4. To understand the importance of a systematic, multidisciplinary team approach to provide excellent care for adults with congenital heart disease.

Tuesday, November 5:

7:00-8:00	B6-115 UH <i>OTN Event #: 135175895</i>	Complex Revascularization Rounds Presenters: CV Surgeons & Interventionalists Faculty Supervisors: D. Nagpal/P. Garg Case-based presentation and discussion Learning Objectives: 1. To develop a systematic approach to interpretation of coronary angiograms. 2. To discuss interesting case examples and their management. 3. To apply an evidence-based approach to complex revascularization cases in order to improve outcomes.
8:00-9:00	B6-115 UH & B2-074 St. Joseph's <i>OTN Event #: 135179275</i>	Heart Failure Rounds Presenters: Attendings & NPs Faculty Supervisors: S. Smith, R. McKelvie & S. MacGregor Learning Objectives: 1. To develop a systematic approach for management of patients with advanced heart failure despite usual care. 2. To discuss challenging cases and develop management plans. 3. To apply patient centered, evidence-based approach to advanced heart failure care in order to improve outcomes, decrease hospitalization and ensure that patients' goals are addressed to the best of our ability.
2:00-5:30	B6-128 UH	ACADEMIC HALF DAY/DIDACTIC EDUCATION SESSIONS
2:00-3:00		Anti-platelet agents Presenter: A. Jaidka Faculty Supervisor: L. Ybarra Learning Objectives: 1. Discuss the use of antiplatelet therapy in coronary artery disease. 2. Discuss the use of antiplatelet therapy in the perioperative period. 3. Discuss new trials in the use of antiplatelet therapy.
3:00-4:00		Lipid Basics Presenter: R. Hegele Learning Objectives: 1. Review key clinical trials. 2. Anticipate new guidelines. 3. Discuss new treatments.
4:30-5:30		Clinical Cardiology Rounds Presenter: P. Antiperovitch Faculty Supervisor: P. Garg Title of Presentation: Out of the Blue Learning Objectives: 1. Introduce a physiologically complex clinical case. 2. Analyze the clinical issues surrounding this case. 3. Review the principles of safe in-hospital management of patients with this condition.

Wednesday, November 6:

8:00-9:00	B6-115 UH	EP Rounds: Tracing Rounds Presenters: Attendings & Fellows Learning Objectives: 1. To develop a systematic approach to EP tracings. 2. To discuss interesting case examples. 3. To review electrophysiology principles and concepts.
-----------	-----------	---

Thursday, November 7:

8:00-9:00	B6-128 UH	Graphics Rounds: ECGs Presenter: P. Leong-Sit
12:00-1:00	B6-115 UH, B2-122 VH, B3-655 St. Joseph's <i>OTN Event #: 135201931</i>	Echocardiography Rounds Presenters: Fellows & Attendings Learning Objectives: 1. To discuss technical aspects related to the acquisition of cardiac ultrasound. 2. To discuss the anatomical and physiological principles underlying echocardiography images. 3. To understand how echocardiography may assist in the management of patients with known or suspected cardiac disease.

Thursday, November 7 (continued):

6:30	<i>The River Room - Museum London, 421 Ridout Street North, London 519.850.2287</i> <i>Sponsor: Pfizer Canada Inc.</i>	Interventional Journal Club <i>Attendance open to Interventional Cardiologists and Fellows, Residents, Research and Cath Lab Staff. RSVP to Charlene Grass (Ext. 33830 or email charlene.grass@lhsc.on.ca)</i> Presenter: S. Bakar Faculty Supervisor: P. Garg Paper for Presentation: TBC Learning Objectives: TBC
------	---	--

Friday, November 8:

8:00-9:00	B6-115 UH <i>OTN Event #: 135207009</i>	EP Rounds: Technology Rounds Presenters: Attendings & Fellows Learning Objectives: 1. To review technological advances in EP. 2. To provide an overview of the principles behind the technology. 3. To review the clinical uses of the technology.
12:00-1:00	B6-128 UH	Transplant Rounds Presenters: Attendings & Fellows Learning Objectives: 1. To review the multidisciplinary issues surrounding transplantation and mechanical circulatory support. 2. To understand hemodynamics of heart failure patients. 3. To discuss the psychosocial issues surrounding transplantation and mechanical circulatory support.

Some of these educational activities/rounds are an Accredited Group Learning Activity (Section 1) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada, approved by the Division of Cardiology Education Committee - Western University.

Supported by unrestricted grants-in-aid provided by:
Amgen Canada Inc. (Repatha)
AstraZeneca Canada Inc. (Brilinta (Ticagrelor))
Bayer Inc. (XARELTO® rivaroxaban tablet)
Bristol-Myers Squibb Canada & Pfizer Canada Inc. (Eliquis (apixaban))
Medtronic of Canada Inc.
Novartis Pharmaceuticals Canada Inc. (Entresto)
Sanofi (Praluent)
Servier Canada Inc. (Lixiana, Lancora)
