Pre-Meeting Questions

- Please note: for this meeting, pre-meeting questions are for program representatives only given the date of the upcoming meeting
 1. Residents completing their own forms without any modifications by the observer is a known issue. What kind of feature in Elentra could help decrease this or inform that a resident has completed the form themselves and no feedback was given?
 2. Resident feedback on whether the feedback written or verbalized for EPAs is important. How would you suggest providing feedback if an EPA's comments, written or verbal, are useful to you? Could this be a feature in Elentra or something done outside of Elentra?
 3. We plan on repeating the resident feedback survey at Schulich. Click [here](#) for last year's report. Are there any questions you would modify or add?
 4. Are you told what EPAs are applicable during a rotation, both on service and off service rotations?
 5. The Royal College recently shared these points from their consultation with Resident Doctors of Canada (RDoC):
 - Residents feel their inability to meet EPA requirements is threatening their career.
 - Programs are interpreting the targets as literal (i.e., need 10 EPAs, have 9 so can't get promoted).
 - What are your thoughts?
