Pre-meeting questions:

- Please review the feature flyer on how to view milestone data in Elentra. Would you want to make milestones optional to assess or keep them as mandatory? What are the pros and cons that you see?
- At the December Clinical Chairs meeting, the Chairs were very interested in how they can help make EPA completion a priority while balancing faculty wellness. What are your suggestions to them on how to hold faculty accountable and ensure everyone is doing their part? Do you have any examples to share in which you've worked with your Chair on the issue of EPA completion?
- The Royal College recently shared these points from their consultation with Resident Doctors of Canada (RDoC):
 - Residents feel their inability to meet EPA requirements is threatening their career.
 - Programs are interpreting the targets as literal (i.e., need 10 EPAs, have 9 so can't get promoted).
 - There is a push for more resident champions at each institution.
 - What are your thoughts?
