

McGill

Reference #: C-191125

Associate/Full Professor (Clinical)

Faculty of Medicine – Department of Neurology and Neurosurgery

Position description

The Department of Neurology and Neurosurgery is inviting applications for a full-time position as a member of the Contract Academic Staff at the rank of Associate/Full Professor (Clinical). The professorial rank will be determined according to the candidate's qualifications and experience. This will be a three-year, renewable appointment.

The candidate will be appointed to clinical practice at the Lakeshore General Hospital, part of the network of the *Centre intégré universitaire de santé et de services sociaux (CIUSSS) de l'Ouest-de-l'Île-de-Montréal*. The Lakeshore General Hospital is a community hospital serving a multicultural population and seeks to provide the highest level of safe patient and family-focused care.

The successful applicant will demonstrate clinical expertise in the area of neurodegenerative diseases and possess strong medical education skills and well-defined clinical or basic research training and interests. The successful candidate will also play an active role in the treatment and management of stroke, and general neurology.

The Department of Neurology and Neurosurgery is affiliated with McGill, Canada's most international university, which is located in vibrant, multicultural Montreal, in the francophone province of Quebec. The neuroscience community at McGill and in greater Montreal is one of the largest and most diverse in North America.

Job Duties

The successful applicant will be expected to be actively involved in all aspects of McGill's academic mission (teaching, supervision of graduate students, and involvement in academic and administrative committees), provide excellent clinical teaching and supervision to residents and medical students, and to pursue scholarly activities in advancing clinical care or clinical research in the area of neurodegenerative diseases.

Qualifications and Education Requirements

Applicants will have advanced training and the demonstrated capacity to excel in academic neurology, including specialized clinical expertise, strong medical education skills, and well-defined clinical or basic research interests in the area of neurodegenerative diseases. Clinician innovators who are developing novel clinical approaches or methods are also encouraged to apply.

Applicants must hold or be eligible for licensure as a neurologist in the province of Quebec. Clinician scientists with MD/PhD or equivalent research-intensive training are strongly encouraged to apply. A good working knowledge of French or a commitment to become fluent in French is necessary.

JOB DETAILS

<i>Job Type:</i>	Contract Academic Staff (Clinical)
<i>Rank:</i>	Associate / Full Professor
<i>Job status:</i>	Full-time

McGill University is committed to equity and diversity within its community and values academic rigour and excellence. We welcome and encourage applications from racialized persons/visible minorities, women, Indigenous persons, persons with disabilities, ethnic minorities, and persons of minority sexual orientations and gender identities, as well as from all qualified candidates with the skills and knowledge to engage productively with diverse communities.

At McGill, research that reflects diverse intellectual traditions, methodologies, and modes of dissemination and translation is valued and encouraged. Candidates are invited to demonstrate their research impact both within and across academic disciplines and in other sectors, such as government, communities, or industry.

McGill further recognizes and fairly considers the impact of leaves (e.g., family care or health-related) that may contribute to career interruptions or slowdowns. Candidates are encouraged to signal any leave that affected productivity, may have had an effect on their career path. This information will be considered to

ensure the equitable assessment of the candidate's record.

McGill implements an employment equity program and encourages members of designated equity groups to self-identify. It further seeks to ensure the equitable treatment and full inclusion of persons with disabilities by striving for the implementation of universal design principles transversally, across all facets of the University community, and through [accommodation policies and procedures](#). Persons with disabilities who anticipate needing accommodations for any part of the application process may contact, in confidence, this [email](#) or phone at 514-398-2477.

All qualified applicants are encouraged to apply; however, in accordance with Canadian immigration requirements, Canadians and permanent residents will be given priority.
