

## First Canadian Peripheral Nerve Symposium

Friday, November 17, 2017

Ivey Spencer Leadership Center

7:30 a.m. to 4:00 p.m.

### AGENDA

- 7:30 Continental breakfast
- 8:00 Introduction and Welcome  
Chris Doherty, Tom Miller and Doug Ross
- 8:10 *The end to side transfer in severe ulnar Neuropathy: Outcomes and expectations*  
Chris Doherty, London
- 8:20 *Targeted motor reinnervation, literature review and current evidence, indications and outcomes*  
Linda Dvali, Toronto East General Hospital, Toronto
- 8:30 *Treating and preventing neuroma following amputation*  
Heather Baltzer, Hand Program, Toronto
- 8:40 DISCUSSION
- 8:45 Controversial Topics for Open Discussion 1  
Kirsty Boyd
- 9:05 *Contralateral C7 transfer for Paediatric Brachial Plexus Injuries*  
Kristin Davidge, Hospital for Sick Children, Toronto
- 9:15 *Electrical Stimulation in Nerve Injury*  
Ming Chan, Edmonton
- 9:25 *Winnipeg's approach to the Pan Plexus Patient*  
Jen Guiffre, University of Manitoba
- 9:35 DISCUSSION
- 9:40 *Topical FK506 to enhance nerve regeneration*  
Greg Borschel, Hospital for Sick Children, Toronto
- 9:50 *Sensory reinnervation: Is there a time limit for sensory recovery following nerve injury?*  
Jenny Lin, Universite de Montreal

# First Canadian Peripheral Nerve Symposium

## AGENDA

- 10:00      *Using EMG for estimating prognosis after traumatic nerve injury*  
Larry Robinson, Sunnybrook Hospital, Toronto
- 10:10      DISCUSSION
- 10:15-10:45      BREAK
- 10:45      *Advances in understanding the mechanism of muscle atrophy*  
James Bain, McMaster University, Hamilton
- 10:55      *Nerve transfers in Brown Sequard pattern of spinal cord injury*  
Raj Midha, University of Calgary
- 11:05      *Primary shoulder surgery as a possible complete treatment for obstetrical brachial plexus palsy*  
Howard Clarke, Hospital for Sick Children, Toronto
- 11:15      DISCUSSION
- 11:20      Controversial Topics for Open Discussion II  
Dimitri Anastakis
- 11:50      Collaborative Research Open Forum  
All Faculty
- 12:10      LUNCH
- 1:00      *It's a Team Sport I: Ottawa Peripheral Nerve Clinic Approach to the Tetraplegic Patient*  
Kirsty Boyd and Gerald Wolff
- 1:10      *It's a Team Sport II: Calgary Peripheral Nerve Clinic*  
Rob Harrop and Raj Midha
- 1:20      *It's a Team Sport III: Vancouver Peripheral Nerve Clinic*  
Kristine Chapman and Sean Bristol
- 1:30      DISCUSSION
- 1:35      *Therapeutic application of electrotherapy and dynamic assist orthosis in Nerve transfer in the Upper Extremity*  
Shrikant Chinchalkar and Juliana Larocerie-Salgado, Hand & Upper Limb Centre, London

# First Canadian Peripheral Nerve Symposium

## AGENDA

- 1:45      *Cold Intolerance – Lessons Learned*  
Christine Novak, University of Toronto
- 1:55      *Muscle Stimulation in nerve injury from the bench to the bedside*  
Michael Willand
- 2:05      DISCUSSION
- 2:10      Controversial Topics for Open Discussion III  
Jen Guiffre
- 2:30      BREAK
- 3:00      *A Brief History of Canadian Peripheral Nerve Surgery*  
Doug Ross, London
- 3:10      *Outcome Measures in Peripheral Nerve Research*  
Steve McCabe and Chris Doherty
- 3:30      Final Discussion and Planning for 2018
- 4:00      ADJOURN
