ADA CEREP® | Continuing Education Recognition Program

AURUM CERAMIC/CLASSIC DENTAL/SPACE MAINTAINERS LABORATORIES is an ADA CERP Recognized Provider
ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Space Maintainers designates this activity for 5 hours of continuing education credits.

PACE ACADEMY OF GENERAL DENTISTRY | NATIONAL STANDARDS FOR CONTINUING EDUCATION

ACERU Ceramic (code # 20976) is designated as an approved PACE Program Provider by the Academy of General Dentistry. The formal continuing education programs of this program provider are accepted by AGD for Fellowship, Mastership and membership maintenance credit. Approval does not imply acceptance by a state or provincial board of dentistry. The current term of approval extends from June 1, 2015 to May 1, 2019.

FEE INCLUDES: Course, light breakfast and lunch CANCELLATION POLICY A full refund will apply to cancellations with 3 or more business days notice. Less than 3 days notice, will result in no refund.

DISCLOSURE: Cerum Ortho may provide services that are discussed in this seminar. Dr. Luis Carrière has financial interest in the systems discussed.

Reduce treatment times with the Sagittal First™ Philosophy for Class II and III correction with Self-Ligation Brackets & Aligner Systems

Proudly sponsored by: CERUM ORTHO

TORONTO | CALGARY | VANCOUVER
Course Description

Dr. Carrière will show how correcting Class II and Class III malocclusions, and then transitioning to a Passive Self-Ligating Bracket system, provides treatment efficiencies over traditional mechanics. Addressing the patient’s sagittal dimension FIRST to establish a Class I platform simplifies, shortens and standardizes treatment. Patient compliance is also maximized when the anterior – posterior discrepancy is corrected at the beginning of treatment.

This new Sagittal First™ approach ensures that the practitioner addresses the total facial harmony of the patient. Dr Carrière will also review soft tissue analysis and how to ensure long term treatment results which benefits patients as they age.

Upon completion of this course participants will:

- Understand the efficiencies of the Sagittal First™ Philosophy and how it benefits patients and provide stable long term treatment results.
- Learn the efficiencies of correcting Class II and Class III malocclusions at the beginning of treatment.
- Understand how to use harmonious forces resulting in minimal extractions.
- Have a better understanding of soft tissue analysis as patients age.
- Recognize the long-term health benefits of airway friendly orthodontics.

In this presentation you will discover many of the innovative features of the Carrière SLX 3D™ Bracket System. All designed to meet your ultimate goals in:

1. Effective case management.
2. Optimal tooth positioning.

Learning Objectives:

1. Learn how to control distalization with predictability.
2. Learn how to accomplish a solid Class I posterior platform in Class II and Class III cases.
3. Learn how to simplify and optimize the orthodontic procedure and at the same time reduce the treatment period.

Total treatment time 10.5 Months; 6 months Carrière® Motion 3D™ + 4.5 Months Aligners

PLUS: Non-Extraction Solutions for Complex Class II and Class III Correction

Dr. Cantor will review new protocols to correct Class II and Class III malocclusions at the beginning of treatment when a patient’s compliance is at its highest. This new clinical approach is more efficient resulting in shorter treatment times and less extractions. Dr. Cantor will show how adopting the SAGITTAL FIRST Philosophy allows her to deliver aesthetic results which are extremely stable.

Dr. Ana María Cantor obtained her dental degree in 1990 from the Pontificia Javeriana University in Bogota, Colombia. She then continued her studies and completed the Orthodontics and Dentofacial Orthopedics postgraduate program at Uni C.I.E.O in Bogota, Colombia, in 1994.

Dr. Cantor is the Director of Clínica Dental Odontokids in Malaga, Spain. In addition to her private practice, she is a member of the American Association of Orthodontists (AAO), World Federation of Orthodontists (WFO), European Orthodontic Society (EOS) and the Sociedad Española de Ortodoncia (SEDO).
