CONTINUING DENTAL EDUCATION
Schulich School of Medicine & Dentistry, Western University
In association with the Oxford County Dental Society (OCDS)

MEDICAL EMERGENCIES IN THE DENTAL OFFICE
DR. DAVID ISEN

PROGRAM OUTLINE
This seminar will explore how and when emergencies occur in dental offices. Patient evaluation including medical history and vital sign assessment will be presented. Next, the basics of medical emergency response will be discussed including basic cardiac life support and the use of automated external defibrillators. Medical emergency drugs that all dental offices should carry and be able to use, is discussed next. Then, emergency algorithms and the pathophysiology of common emergencies will be presented. Finally, suggestions as to how to organize a medical emergency kit will be shown so that months down the road, the dental office will be prepared to treat specific emergencies.

LEARNING OBJECTIVES
• Understanding which patients are most at risk for having a medical emergency and when those emergencies are most likely to occur;
• Understanding how to manage any medical emergency using a basic protocol for emergency response;
• How to identify various medical emergencies such as angina, myocardial infarction, stroke, anaphylaxis, local anaesthetic overdose and more;
• How and when to use medical emergency drugs.

ABOUT THE SPEAKER
DAVID ISEN, BSc, DDS

Dr. David Isen is a graduate of the Schulich School of Medicine & Dentistry and holds a Master of the College of Sedation in Dentistry from the American Dental Society of Anesthesiology. He practices in an anesthesia-based office in Toronto, treating patients who require intravenous sedation or advanced techniques in local anesthesia. He is a past-president of the Ontario Dental Society of Anesthesiology, and has lectured internationally on topics related to local anesthesia and medical emergencies in the dental office.

Dr. Isen has authored numerous journal articles and has peer-reviewed articles for a variety of dental journals. He also has acted as a consultant for dental and pharmaceutical companies.

Saturday, Sept. 28, 2019
