

# CONTINUING DENTAL EDUCATION

Schulich School of Medicine & Dentistry, Western University

## Peri-operative Management of the Oral Surgery Patient - Category 1

### PROGRAM OUTLINE

Oral surgery has been practiced for millennia. Our evolving understanding of physiology and advances in instrumentation and pharmacology is making it possible to ensure that patients are more comfortable than ever to undergo safe and predictable care. All dentists need an understanding of basic peri-operative assessment and management of oral surgical patients. This is even more paramount when dealing with medically challenging patients.

### LEARNING OBJECTIVES

- Evaluate a patient for appropriate oral surgery treatment;
- Manage common post-operative sequelae and/or arrange for appropriate referral;
- Understand the potential complications associated with common oral surgical procedures.

## Basic Principles of Oral Surgery - Category 2

### PROGRAM OUTLINE

This is a continuation of the morning session emphasizing the techniques of dentoalveolar surgery.

### LEARNING OBJECTIVES

- Review the indications and techniques of oral surgery procedures;
- Prevention, mitigation and management of complications;
- Management of impacted teeth;
- Site optimization strategies for implant placement.

## ABOUT THE SPEAKER

**KEYVAN ABBASZADEH**, BSc, DMD, FRCD(C)

Dr. Keyvan Abbaszadeh obtained a BSc from the University of Toronto and a DMD from Tufts University School of Dental Medicine. He then completed an internship at the Brigham and Women's/Harvard University Hospital in Boston, Massachusetts, followed by a residency in Oral and Maxillofacial Surgery at the University of Illinois at Chicago. Dr. Abbaszadeh is a Fellow of, and an examiner for the Royal College of Dentists of Canada, a Diplomate of the American Board of Oral and Maxillofacial Surgery, a Fellow of International College of Dentists. He is currently in private practice in London, Ontario and an Adjunct Clinical Professor at the Schulich School of Medicine & Dentistry, Western University. Dr. Abbaszadeh's clinical interests are orthognathic, trauma and implant surgery.

Friday, November 8, 2019
