
RESEARCH SEMINAR SERIES

SCHULICH DENTISTRY

2014 February - Dr. Christian Caron

Associate Dean for Research and Graduate Studies, Professor, Faculty of Dentistry, Université Laval

"What are the critical considerations to maintain optimal oral health in the compromised geriatric patient"

2014 April - Dr. T. Michael Underhill

Professor, Dept. of Cellular and Physiological Sciences, Biomedical Research Centre, University of British Columbia

"Mesenchymal cells in health and disease"

2013

2013 April - Dr. Anuradha Prakki

Assistant Professor, Restorative Dentistry, University of Toronto

"Restorative Dental Resins: Physical and Biological Studies to Improve In-Service Stability"

2013 May - Dr. Jorge Perdigão

Professor, Dept of Restorative Sciences, Division of Operative Dentistry, University of Minnesota

"Multi-mode adhesives - Are they reliable?"

2013 August - Dr. David Brigstock

Center for Clinical & Translational Research, The Research Institute at Nationwide Children's Hospital, Columbus, OH

"The role of CCN2 in fibrosis"

2013 December - Dr. Hector Rios

Assistant Professor, Dept. of Periodontics and Oral Medicine, School of Dentistry, University of Michigan

"Novel biological determinants of bone and periodontal regeneration"

2012

2012 March - Dr. Michael Glogauer

Associate Professor, Faculty of Dentistry, University of Toronto

"Determining the regulators of Osteoclast fusion: The role of the actin binding protein adseverin in osteoclastogenesis"

2012 March - Dr. Frank Oppenheim

Professor and First Distinguished Scientist, Dept of Periodontology & Oral Biology, Henry M. Goldman School of Dental Medicine, Boston University

"Saliva and Innate Immunity"

2012 April - Dr. Ruth Martin

Professor, Communication Sciences and Disorders, Physiology and Pharmacology, Otolaryngology, Neuroscience, and Health and Rehabilitation Sciences - Faculty of Health Sciences, Western University

"Swallowing Biology and Rehabilitation"

2012 May - Dr. Luis Rueda

Associate Professor, School of Computer Science, University of Windsor

"The Role of Sequence and Structural Domains in Prediction of Protein-protein Interaction Types"

2012 September - Dr. Ken Yaegaki

Chair, Department of Oral Health - Nippon Dental University, Tokyo and Clinical Professor, Oral Biological & Medical Sciences - Faculty of Dentistry, University of British Columbia

"Harnessing Tooth-Pulp Stem Cells for Regenerative Medicine: Lessons learned from Halitosis Research"

2012 October - Dr. Rick Carvalho

Professor, Department of Oral Biological and Medical Science, Division of Biomaterials and Director, Frontier Clinical Research Centre, UBC Dentistry

"Preventing the Extinction of Resin-Dentin Hybrid Layer and its Clinical Relevance"

2012 December - Dr. Eva Helmerhorst

Associate Professor, Department of Periodontology & Oral Biology, Henry M. Goldman School of Dental Medicine, Boston University.

"Whole Saliva: Functions in and beyond the Oral Cavity"

2011

2011 February - Dr. Gordon Southam

Professor & Canada Research Chair in Geomicrobiology, Departments of Biology & Earth Sciences Director, Centre for Environment and Sustainability, UWO

"Bacteria-mineral interactions; fundamental lessons on materials other than teeth"

2011 February - Dr. Gildo C. Santos Jr

Schulich School of Medicine & Dentistry, Western University

"Mechanical Properties of a Dual-Cure Resin Cement Photocured with Different Curing Lights"

2011 March - Dr. Koichiro Ueda

Nihon University School of Dentistry, Tokyo, Japan

"Dysphagia Rehabilitation at Nihon University School of Dentistry & Public Long Term Care Insurance in Japan"

2011 April - Dr. Aart Molenberg

Head of Biomaterials & Surfaces Research, Institut Straumann AG, Basel, Switzerland

"How to Improve the Osseointegration of Dental Implants?"

2011 May - Dr. Peter Cadieux

Miriam Burnett Research Chair in Urological Sciences, Assistant Professor - Depts of Surgery and Microbiology & Immunology, UWO, Scientist - Lawson Health Research Institute (LHRI) and Canadian Research and Development Centre for Probiotics

"Probiotics and Antibiotics: From the Urogenital Tract to the Oral Cavity"

2011 June - Dr. Jun Yang

Associate Professor, Dept of Mechanical & Materials Engineering, & Biomedical Engineering Program, UWO

"Nanotechnology: An Enabling Tool for Biology"

2011 July - Dr. Guy Moshe Aboodi

PhD Candidate (combined PhD/Periodontics Program) - Supervised by Dr. Michael Glogauer, Graduate Periodontology, Faculty of Dentistry, University of Toronto

"The role of oral neutrophils in the development and progression of refractory periodontitis"

2011 November - Dr. Anil Kishen

Associate Professor, Endodontics, University of Toronto

"Emerging Nanotechnology in Endodontics"
