Department of Medicine Friday Rounds
LHSC – Victoria Hospital
Friday, January 5, 2018
Sumner Auditorium, B2-119, VH
(11:45 am lunch available)

12:00 p.m.  Selected Topics in Internal Medicine – Staff Presentation

Speaker:  Dr. Mark Goldszmidt, GIM

Topic:  Doing Research at the Intersection of Patient Care, Supervision and Teaching: Lessons Learned Along the Way

Objectives:

During this presentation, I will review key lessons learned about the complexity of clinical learning environments and what happens when patient care, supervision and teaching intersect in real world contexts. In particular, I will emphasize issues related to: variability of role perception and its implications for team performance; variability of teaching practice and the problem of one-size fits all approaches and variability of trainee performance and its implications for assessment.

This event is an accredited Category 1 group learning activity as defined by the Maintenance of Certification (MOC) Program of the Royal College of Physicians and Surgeons of Canada.

Attendance and evaluation forms will be distributed to your UWO e-mail through One45 on Saturday.
