12:00 p.m.    Selected Topics in Internal Medicine – Staff Presentation
Speaker:     Dr. Richard Kim, Clinical Pharmacology
Topic:       Personalized Medicine in Action: Interesting Cases and Trends

Objectives:

1. Present cases of therapeutic dilemmas, where pharmacogenomics and clinical pharmacology expertise help to identify optimal drug dose or selection
2. Outline the clinical importance of rapid, ultrarapid, as well as intermediate and poor metabolizer status for a number of drug metabolism genes
3. Review emerging trends in the referral pattern from other specialties, in terms of pharmacogenetic tests that are requested

This event is an accredited Category 1 group learning activity as defined by the Maintenance of Certification (MOC) Program of the Royal College of Physicians and Surgeons of Canada.

Attendance and evaluation forms will be distributed to your UWO e-mail through One45 on Saturday.
