Thursday, April 19, 2018
12:00 — 1:00pm (lunch at 11:30am)
Auditorium B, University Hospital

Death by Proton Pump Inhibitor?
Evaluating the Risks & Benefits of Long Term PPI Use

Objectives:

1. Critically evaluate the long term risks of PPI therapy
2. Define strategies that might mitigate long term risk
3. Learn to employ appropriate evidence based prescribing of PPIs.

Dr. Keith McIntosh is a Gastroenterologist and Assistant Professor of Medicine at Western University.
