Thursday, December 6, 2018
12:00 — 1:00pm (lunch at 11:30am)
Auditorium B, University Hospital

Personalized Medicine in Action: Interesting Cases and Trends

Objectives:

a) Present cases of therapeutic dilemmas, where pharmacogenomic and clinical pharmacology expertise help to identify optimal drug dose or selection

b) Outline the clinical importance of rapid, ultrarapid, as well as intermediate and poor metabolizer status for a number of drug metabolism genes

c) Review emerging trends in the referral pattern from other specialties, in terms of pharmacogenetic tests that are requested.

The Medical Grand Rounds at University Hospital is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada. Evaluations will be sent out and your attendance calculated automatically through One45.
