Thursday, July 20, 2017
12:00 — 1:00pm (lunch at 11:30am)
Auditorium B, University Hospital

Management of Acute Venous Thromboembolism: Do we always follow the standards of care?

Objectives:

1. To review the length of treatment with anticoagulants in unprovoked VTE

2. To review the management of VTE when the anticoagulant fails

3. The best type and duration of therapy in cancer and VTE

Dr. Martha Louzada is an Associate Professor of Medicine and a Hematology Consultant at the University of Western Ontario/ London Health Sciences Centre in London, Ontario, Canada.
