Thursday, January 9, 2020
12:00 — 1:00pm (lunch at 11:30am)
Auditorium B, University Hospital

Resuscitation Preferences Conversations: Why we sometimes get them wrong and how we can move to getting them right (More often, hopefully)

Objectives: At the end of these rounds, participants will be able:

1. Describe some of the problem that can lead to less effective resuscitation preference conversations
2. Espouse the ideal goal of these conversations: “getting it right”
3. Explain the 3 key features shaping patient decision making and the two additional ones shaping substitute decision maker decision making
4. Discuss the difference between the process of having a preferences conversation and the content of the conversation

Mark Goldszmidt MD, MHPE, PhD, FRCPC
Professor of Medicine and Clinician-Scientist, Centre for Education Research & Innovation and The Division of Internal Medicine, Department of Medicine Western University.

The Medical Grand Rounds at University Hospital is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada. Evaluations will be sent out and your attendance calculated automatically through One45.
