Medical Grand Rounds

Thursday, September 19, 2019
12:00 — 1:00pm
Auditorium B, University Hospital

Ethical Challenges of Comparative Effectiveness RCTs using Routinely Collected Data

Objectives: To be able to…

- Define a pragmatic comparative effectiveness RCT (ceRCT)
- Describe ethical challenges raised in the design and conduct of ceRCTs
- Apply ethical principles to an example of a ceRCT

Dr. Charles Weijer is a Professor in the Departments of Philosophy, Medicine and Epidemiology and Biostatistics at Western University.
