

# NOTE ROOM CHANGE

(THIS WEEK ONLY)

## Medicine *Grand Rounds*

Friday, January 13, 2023

12:00 — 1:00pm

Auditorium A at UH,

**7th Floor Amphitheatre at Victoria Hospital,**

or Zoom

<https://westernuniversity.zoom.us/j/98807304248>

Dr. Chris McIntyre

**Getting dialysis wrong:**  
Newly appreciated badness and novel ways to make it better

**Objectives:**

1. Appreciate that poor outcomes for dialysis patients is derived partly from the treatment itself
2. Circulatory stress of the treatment causes multiple ischemic organ injuries
3. Salt is a major uremic toxin and builds up in tissues causing further injury
4. All of the above are amenable to novel interventions cast in an evolved understanding of the nature of the injury

Dr McIntyre moved from the UK in 2014 and is now Professor of Medicine, Pediatrics and Medical Biophysics. He is the inaugural holder of the Robert Lindsay Chair of Dialysis Research and Innovation at the University of Western Ontario.

The Medical Grand Rounds at University Hospital is a self-approved group learning activity (Section 1) as defined by the Maintenance of Certification program of the Royal College of Physicians and Surgeons of Canada. **Evaluations will be sent out and your attendance calculated automatically through One45.**
